Medical Records Available for MyChart

Cincinnati Children's outpatient divisions began using our electronic medical record, Epic, on the dates listed below. Check the list to find out if MyChart records are available for your child's area of treatment, and if so, how far back they go. The information you will see in MyChart will come from your child's electronic medical record.

For example, if your child is a patient in Allergy & Clinical Immunology, you'll see records in MyChart for any visits after September 2008.
