Division Data Summary

Research and Training Details

Number of Faculty	12
Number of Joint Appointment Faculty	1
Number of Support Personnel	48
Direct Annual Grant Support	$56,650

Clinical Activities and Training

Number of Clinical Staff	2
Number of Clinical Students	11
Inpatient Encounters	120
Outpatient Encounters	35,474

Faculty Members

Stephen Wilson, DMD, MA, PhD, Professor ; *Division Director*

Marie Callen, DMD, Assistant Professor

Richard Campbell, DMD, MS, Assistant Professor ; *Director of Orthodontics*

Murray Dock, DDS, MSD, Associate Professor

William Fye, DDS, Assistant Professor ; *Director Off Campus Offices*

William Greenhill, DMD, Assistant Professor ; *Assistant Residency Program Director*

Anthony Kamp, DMD, Associate Professor Clinical

AnnMarie Matusak, DDS, MSD, Assistant Professor

Howard Saal, MD, Professor ; *Medical Director, Craniofacial Team*

Iris Sageser, RDH, MS, Field Service Associate Professor ; *Craniofacial Team Administrator*

James Steiner, DDS, Professor

Erwin Turner, DMD, Professor ; *Residency Program Director*

Clinical Staff Members

- **Craig Mueller, DDS**
- **David Sullivan, DDS**

Trainees

- **Laura Carter, DDS,** PL-2, Baylor
- **Carla Guzman, DDS,** PL-2, University of Maryland
- **Kimberly Lugtu, DDS,** PL-2, University of California LA
- **Chris Mayeda, DDS,** PL-2, University of Southern California
- **David Slawinski, DDS ,** PL-2, University of North Carolina
- **Robert Virata, DDS,** PL-2, University of California LA
- **Erica Bayoneto, DDS,** PL-1, University of Michigan
- **Ryan Bybee, DDS,** PL-1, University of the Pacific
- **James Collette, DDS,** PL-1, Creighton University
- **Matthew Healy, DDS,** PL-1, University of Missouri
- **Travis White, DMD,** PL-1, University of Kentucky

Significant Accomplishments in FY08

Research

The Division of Pediatric Dentistry completed participation in an NIH-sponsored project involving multiple hospitals and their dental programs. The study investigated the relationship between early childhood caries and children's body mass index and general growth. Additionally, the Division had several clinical research projects focusing primarily on patient responsiveness to procedural formats in both the clinic and operating room arenas (e.g. impact on quality of life factors of dental rehabilitation delivered in the operating room during the first 24 hours of the post-operative period). These projects will facilitate improvements in safety and care efficiency.

Grants, Contracts, and Industry Agreements

Grant and Contract Awards		Annual Direct / Project Period Direct
Wilson, S		
Severe Early Childhood Caries and Growth in Young Children National Institutes of Health (Boston University Medical Campus) U54 DE 014264	05/01/06 - 07/31/08	$56,650 / $126,900
	Current Year Direct	**$56,650**
	Total	**$56,650**
