

## Breastfeeding Medicine Clinic

### Supportive services for nursing mothers and babies

Our outpatient Breastfeeding Medicine Clinic serves mothers and babies having difficulty breastfeeding.

#### Contact us

To make a referral or appointment at any of our four locations call the program directly at:

Phone: 513-636-2326

[www.cincinnatichildrens.org/breastfeeding](http://www.cincinnatichildrens.org/breastfeeding)

#### Our experienced team

Our clinic, part of General and Community Pediatrics, is staffed by pediatricians who are all International Board Certified Lactation Consultants. All of the providers have extensive experience and treat a wide range of maternal and pediatric health conditions related to breastfeeding.

Sheela Geraghty MD, MS, IBCLC

Ellen Springer MD, IBCLC

Julie Ware MD, MPH, IBCLC

#### Our clinic services

We can evaluate, treat and manage breastfeeding problems such as:

- Problems with latch
- Sore nipples and breast pain
- Slow weight gain in the baby
- Low milk supply
- Tongue-tie
- Nipple and breast infections, including mastitis and yeast infection
- Breastfeeding multiples
- Complex breastfeeding challenges

#### Our supportive sessions

Our care is designed to treat the needs of both the mother and baby. We allow 90 minutes at each visit for a full breastfeeding session and evaluation, weighing the baby before and after the feeding. We schedule longer visits for certain situations like twins or triplets. Then we work with the mother to design a detailed feeding plan that works for her.

**“Our strength is that we are able to evaluate and treat both mother and baby in one visit.”**

— Sheela Geraghty, MD, MS,  
IBCLC

## Clinic locations

## To make a referral

Call 513-636-2326. Communication is a top priority for us. We send a copy of the electronic visit record to the mother's and baby's primary provider within 1–2 days of the visit.

## To make an appointment

Call 513-636-2326 for an appointment at any of our four locations. We understand that breastfeeding concerns are urgent, so we do our best to get mothers and babies scheduled as soon as possible.

For patient referrals and non-urgent consultation during business hours,  
contact the Center for Breastfeeding Medicine directly at **513-636-2326**
