Application for Graduate NP Student Clinical Placement

This application for clinical practicum placement at Cincinnati Children's is appropriate for RNs in Nurse Practitioner programs as well as current APRNs seeking clinical placement for post-master's certification.

By completing this application, you are agreeing to the following:

- *Submission of application does not guarantee a placement as requests typically exceed availability*
- *Pediatric primary care placements are not always available*
- *The majority of placements are in pediatric subspecialties*
- *Available hours for placements may not fulfill total hours requested*
- *It is recommended placement options be discussed with clinical faculty prior to submission to ensure the placement request meets clinical course requirements*

Therefore, you may also wish to pursue opportunities for pediatric placement at other health care organizations to meet your course requirements. For consideration of clinical placement , please ***complete and return this application in it's entirety no later than March 3rd to NPStudents@cchmc.org***
