### Pediatric Scientist Development Program ELIGIBILITY FORM

(for PSDP application submission March 11, 2016)

The Pediatric Scientist Development Program (PSDP) is designed to provide research training relevant to specialty areas of pediatrics and to prepare entry-level faculty for research careers in academic pediatrics. Physicians presently in pediatric residency or first year of fellowship who wish to train in basic, translational, or clinical research with an established investigator/mentor are encouraged to apply, as are candidates who seek training in epidemiology/statistics, informatics, health services, or health policy (see attached Statement on Clinical and Translational Research). No patient contact/clinical duties are allowed during the first two years of PSDP-sponsored training.

This **Eligibility Form** is used to determine the accurate timing of application submission. An Application will be provided once eligibility has been verified. For most candidates, the Application will be due on March 11 of the PGY-3 year; therefore, an Eligibility Form should be submitted electronically to the PSDP Program Coordinator ([ana.madani@cchmc.org](mailto:ana.madani@cchmc.org)) no later than the fall of the PGY-3 year (or PGY-2 year if fast tracking). All applications to PSDP are to be submitted by March 11, sixteen months before the start of longitudinal protected continuous research time. Refer to our web site for additional details: [www.cincinnatichildrens.org/psdp](http://www.cincinnatichildrens.org/psdp)

**CURRENT DATE:**

PERSONAL DATA			
Last Name	First Name	Middle Initial	Degree(s)
Current Address (Street City, State, Country, Zip Code)			
Home Telephone		Cell (Mobile) Telephone

Fellowship Director:			Email:		

<b>PROPOSED RESEARCH PROJECT</b>	
Research Interest	
Research Mentor	
Academic Title	
Dept & Institution	

<p><b>PROPOSED MENTOR'S RESEARCH FUNDING: <i>Attach NIH Biosketch, Canadian Common CV or describe below.</i></b></p> <p>The PSDP recommends that research mentors have NIH or other funding to cover the years which you plan to spend in the lab. This funding is not expended on your training, but it is a marker of a well-established research program. Laboratories selected for training should have strong reputations and a long history of funding. Training must be directed by senior scientists and the mentor is expected to provide direct supervision of the PSDP candidate.</p>
