

## Overview of MyChart Features

MyChart offers several features to help patients and their caregivers manage their condition at home, including access to lab and test results. To log into MyChart, go to [www.cincinnatichildrens.org/mypages](http://www.cincinnatichildrens.org/mypages).

## How to Sign Up

To sign up for MyChart, visit any of our Cincinnati Children's outpatient clinic locations, including any of our neighborhood locations. You do not need an appointment. If you're a patient under 18, you'll need your parent or guardian with you. You will be asked to sign our MyChart Consent Agreement, then a member of our staff will give you an activation code and instruction on how to finish setting up your account at home. The activation code is good for 21 days.

## Let's Take a Tour

When you log into MyChart, you will see:

### 1. Alerts About New Information

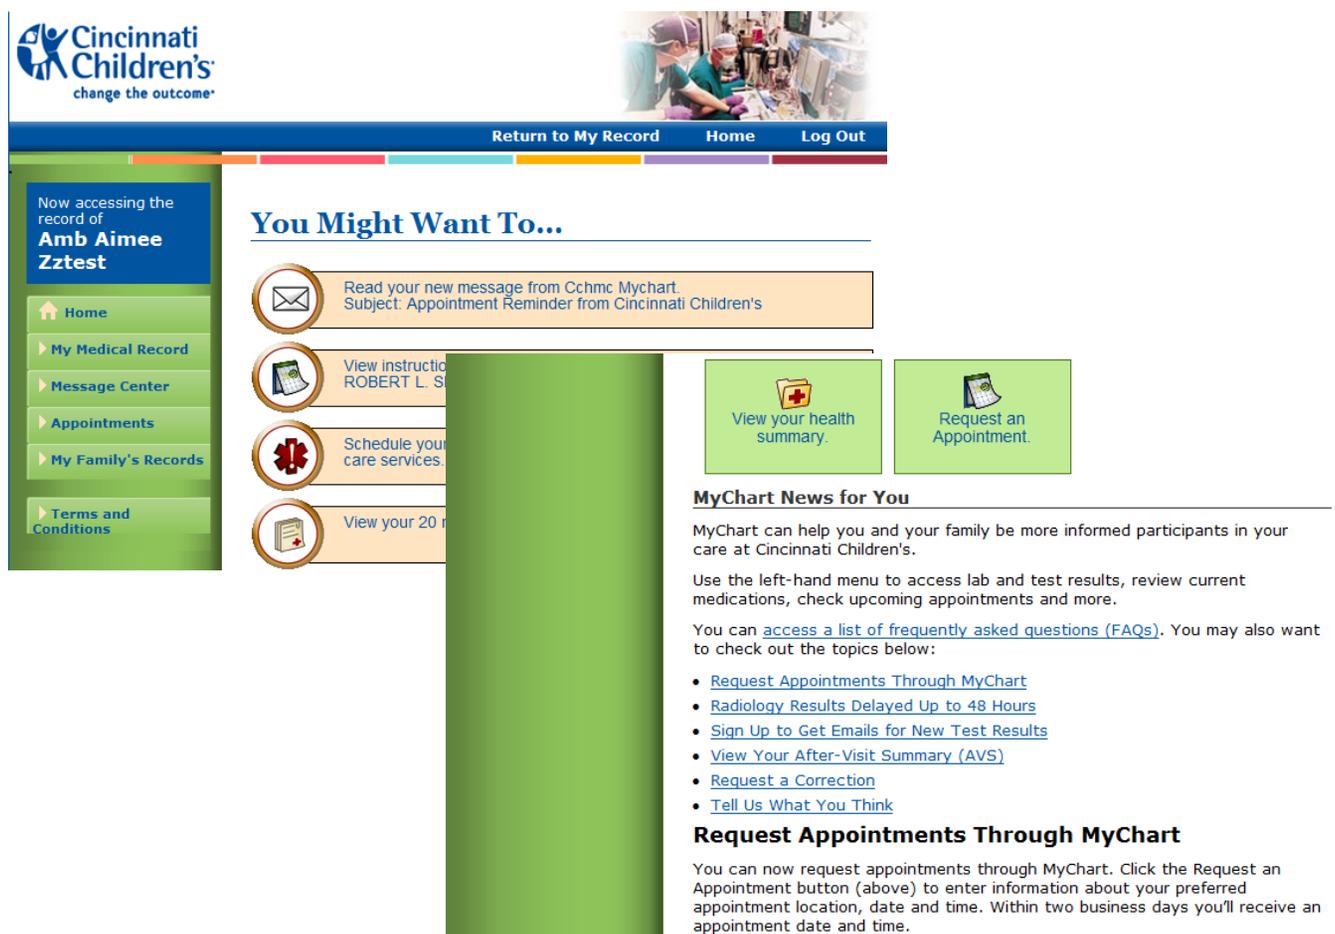

When you log into your MyChart account, you will see alerts that let you know if there are new messages, new test results, or new instructions for an upcoming visit.

### 2. MyChart News For You

On the home page of MyChart, you can read updates about new features or find answers to frequent questions.

### 3. Main MyChart Navigation

To begin exploring all that MyChart has to offer, choose a link from the main navigation to start viewing your child's health information.

**You Might Want To...**

- Read your new message from Cchmc Mychart. Subject: Appointment Reminder from Cincinnati Children's
- View instructions for ROBERT L. S...
- Schedule your care services.
- View your 20...

**MyChart News for You**

MyChart can help you and your family be more informed participants in your care at Cincinnati Children's.

Use the left-hand menu to access lab and test results, review current medications, check upcoming appointments and more.

You can [access a list of frequently asked questions \(FAQs\)](#). You may also want to check out the topics below:

- [Request Appointments Through MyChart](#)
- [Radiology Results Delayed Up to 48 Hours](#)
- [Sign Up to Get Emails for New Test Results](#)
- [View Your After-Visit Summary \(AVS\)](#)
- [Request a Correction](#)
- [Tell Us What You Think](#)

**Request Appointments Through MyChart**

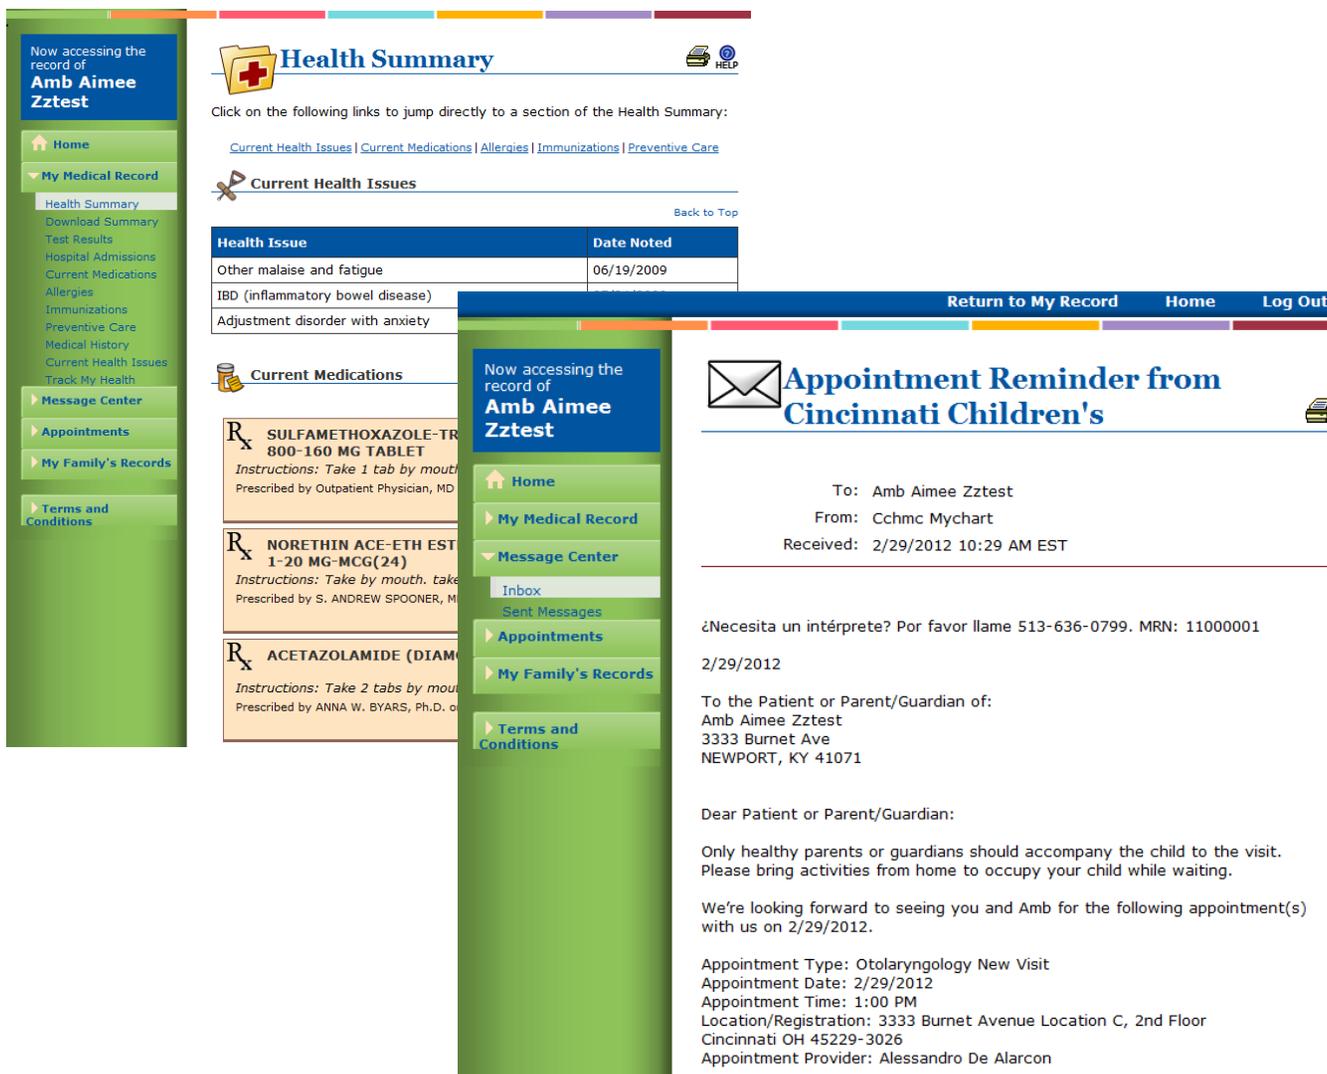

You can now request appointments through MyChart. Click the Request an Appointment button (above) to enter information about your preferred appointment location, date and time. Within two business days you'll receive an appointment date and time.

## 4. Find Diagnoses, Allergies, Test Results – and More

When you click on Medical Record from the main navigation, you find information about your child's diagnoses, test results, current medications, medical history, and allergies and immunizations.

## 5. Receive Appointment Reminder Letters in MyChart

When you click on Message Center, you will find appointment reminder letters for your child's appointments.

To the Patient or Parent/Guardian of:  
 Amb Aimee Zztest  
 3333 Burnet Ave  
 NEWPORT, KY 41071

Dear Patient or Parent/Guardian:

Only healthy parents or guardians should accompany the child to the visit. Please bring activities from home to occupy your child while waiting.

We're looking forward to seeing you and Amb for the following appointment(s) with us on 2/29/2012.

Appointment Type: Otolaryngology New Visit  
 Appointment Date: 2/29/2012  
 Appointment Time: 1:00 PM  
 Location/Registration: 3333 Burnet Avenue Location C, 2nd Floor  
 Cincinnati OH 45229-3026  
 Appointment Provider: Alessandro De Alarcon

## 6. View test results

With a MyChart account, you can also view your or your child's lab and radiology results. Most labs will appear in MyChart as soon as the final result is available. Pathology tests appear in MyChart seven days after the final result is complete. Radiology results appear after two days.

For lab results, you can graph the results to view trends over time.
