RESEARCH EXPERIENCE

Postdoctoral

2011-Present Postdoctoral Fellow, Center for Adherence and Self-Management

Cincinnati Children's Hospital Medical Center, Cincinnati, OH

Conduct data analyses and write manuscripts addressing adherence across multiple pediatric populations (e.g., diabetes, epilepsy, inflammatory bowel diseases, oncology, eosinophilic gastrointestinal disorders); serve as co-investigator on two psychosocially and adherence-focused research studies conducted in collaboration with the small bowel transplant team; collect data on adolescent/young adult cancer survivor barriers to obtaining medical care, submitted two foundation grants to fund the project, attend weekly medical team clinical and research meetings to facilitate project implementation; interventionist on grant-funded projects examining telehealth and clinic-based medication adherence interventions for youth with chronic illness; gain exposure to clinical program development and quality improvement methodology across clinics; assist with grant preparation, participate in departmental grant-review meetings. (Paid.) Supervisors: Dennis Drotar, PhD, Kevin Hommel, PhD, Avani Modi, PhD, Ahna Pai, PhD, Korey Hood, PhD.

<u>Internship</u>

2010-2011 Research Intern; Obesity, Psychosocial Functioning, and High-Risk Behaviors

Cincinnati Children's Hospital Medical Center, Cincinnati, OH Conducted analyses and prepared manuscripts examining: 1) high-risk behaviors among healthy weight and obese adolescents, and 2) psychosocial functioning of obese youth seeking treatment for weight management. (Paid.) Supervisor: Meg Zeller, PhD.

Graduate School

2009-2010 Research Assistant, World Health Organization (Geneva, Switzerland)

Designed and implemented research projects on efficient literature search strategies and clinician conceptualizations of mental health diagnoses to inform the revision of the International Classification of Diseases (ICD) classification system (child and adolescent disorders).

Supervisors: Michael Roberts, PhD, ABPP (Consultant, Revision of ICD-10 Mental and Behavioural Disorders); Geoffrey Reed, PhD (Senior Project Officer, Revision of ICD-10 Mental and Behavioural Disorders, Department of Mental Health and Substance Abuse, World Health Organization).

2009-2010 **Dissertation**

Developed and evaluated a measure of school nurses' perceived barriers to addressing the weight-related health of students and families, and examined whether an online intervention changed nurses' perceived barriers.

Supervisor: Ric Steele, PhD, ABPP.

2008-2010 **Project Coordinator, School Nurses and Pediatric Obesity (an online intervention)**

Pediatric Health Promotion Lab, University of Kansas, Lawrence, KS Coordinated a grant-funded project to design and implement a web-based intervention to promote school nurse communication with students and families about pediatric weightrelated health. The overall goal of the project was to provide education on evidence-based obesity assessment and intervention techniques to an underrecognized healthcare provider population. Led school nurse focus groups to inform intervention content,

communicated with school districts to facilitate collaboration and recruitment, prepared granting agency progress reports, assisted with grant preparation for follow-up projects, supervised undergraduate research assistants in data entry and coding focus group transcripts, prepared manuscripts and conference presentations. (Paid.) Supervisor: Ric Steele, PhD, ABPP.

2008-2009 Research Assistant, Pediatric End-stage Renal Disease

Developmental and Behavioral Sciences, Children's Mercy Hospital, Kansas City, MO As part of a project examining the cognitive and psychosocial outcomes for children who have a history of end-stage renal disease, administered and scored intelligence, achievement, memory, psychosocial, and quality of life assessments. (Paid.) Supervisor: Rebecca Johnson, PhD.

2007-2009 Principal Investigator, Children with Cancer and Their Siblings

Planned and implemented a study examining the psychosocial adjustment (e.g., role of peer support, attitudes towards illness, quality of life) of children with cancer and siblings of children with cancer who attended a summer camp. Completed a program evaluation of the camp. Supervised undergraduate research assistants in data collection and entry. Supervisor: Michael Roberts, PhD, ABPP.

2006-2008 Research Coordinator, Pediatric Gastroenterology

Children's Mercy Hospital, Kansas City, MO

Study coordinator for six research studies (e.g., examining medication adherence, physician and psychologist perceptions of best practices for treating recurrent abdominal pain). Recruited participants, corresponded with IRB, analyzed data, prepared manuscripts and conference presentations. (Volunteer 2006-2007, Paid 2007-2008.) Supervisor: Jennifer Schurman, PhD.

2007 Master's Thesis

Conducted a meta-analysis of interventions to increase adherence to medication regimens for acute illness (pediatric otits media and streptococcal pharyngitis). Supervisor: Michael Roberts, PhD, ABPP.

2006 Research Assistant, Benefit-Finding in Pediatric Chronic Illness

Children's Mercy Hospital, Kansas City, MO

Recruited children and families in cystic fibrosis, asthma, and gastroenterology clinics for a study of children's and parent's benefit-finding (i.e., ability to perceive benefit to the adverse situation of having a chronic illness or child with chronic illness). The project extended the concept of benefit-finding to children and adolescents, compared perceptions of benefit-finding between family members, and examined modifiable correlates of benefit-finding which could be incorporated into intervention. Supervisor: Michael Roberts, PhD, ABPP.

College & Post-Bachelor's

2003-2005 Research Coordinator, Bipolar Disorder

Massachusetts General Hospital Bipolar Clinic & Research Program, Boston, MA Coordinator for five clinical trials including "Children at Risk for Bipolar Disorder"; prepared federal and foundation grant submissions; coordinated clinic intake; enrolled and followed patients using clinical assessments in the Systematic Treatment Enhancement Program for Bipolar Disorder (STEP-BD), an NIMH-funded, multi-site study; research site monitor for STEP-BD at Stanford University, Case Western Reserve University, Howard University; communicated with IRB, FDA, funding sources; responsible for data management and analysis, hiring and training research assistants. (Paid.) Supervisor: Andrew A. Nierenberg, MD.

2002-2003 Research Assistant, Schoolchildren and their Families Project

University of California, Berkeley, CA

Coded videotaped marital and parent-adolescent interactions for autonomy and relatedness, completed an independent research project on early sibling relationships, completed senior honors thesis (awarded High Honors) on life changes following bereavement using the Adult Attachment Interview, and assisted with data management. Supervisors: Philip Cowan, PhD; Carolyn Cowan, PhD.

2000 Lab Assistant, Cell Biology Laboratory

Harvard Medical School, Boston, MA

Conducted experiments to study the role of spindle formation in cell replication, prepared and organized solutions and supplies.

Supervisor: Rong Li, PhD.
