

CINCINNATI PEDIATRIC RESEARCH GROUP
Minutes of the Meeting
March 29, 2001

ATTENDANCE: Gail Chang, M.D., James Davis, M.D., Thomas DeWitt, M.D.,
Emanuel Doyne, M.D., Anne Marie Fitz, M.D., Evelyn Joseph, M.D.,
Michele Kiely, Dr.P.H., Bob Siegel, M.D., Phil Walson, M.D.

ITEMS DISCUSSED

1. Update on Otitis Media Study
There have been 102 patients enrolled to date.

2. Potential New Studies

Phil Walson mentioned new studies in Clinical Trials:

- a. Head Lice Study – to see if product gets into the blood.
- b. Bilateral Draining Tubes

If interested, please call Phil Walson at 636- 5311 or 636-5872

3. Grant Update
Additional funding is available from AHRQ for competitive continuations to provide continuing support of primary care practice-based research networks (PBRNs) and to assist PBRNs in addressing data-related issues. Applicants are limited to recipients of planning grants that were awarded by AHRQ in September 2000. The grant deadline is April 13, 2001. There are two parts to the grant. The first is for \$50,000 to do the NAMCS and the second is for \$100,000 for special data related projects. The CPRG is planning to submit for both parts.
