

Pediatric and Adolescent Gynecologists- Plan to attend the upcoming...

Reconstructive Pediatric Gynecology A Comprehensive Surgical and Management Workshop

Led by Alberto Peña, MD, Marc Levitt, MD,
and Lesley Breech, MD
Colorectal Center for Children
November 3-5, 2010

Join us for a workshop featuring a discussion of cloaca, urogenital sinus with normal anus, newborn management of anorectal malformations, bowel management and more. There will be a special section devoted to the gynecological aspects of the care of patients with anorectal malformations. Topics for this special session will include vaginal replacement, reproductive outcomes of women with congenital anomalies, the role of the posterior sagittal approach in gynecologic surgery, interesting gynecologic cases in anorectal malformations, concerns with menses, newborn gynecologic issues, and management of cloacal malformations. The workshop as always includes live operating room demonstrations.
