

Cincinnati Children's Research Foundation

**Seminar Series
Fall 2009**

Wednesdays 12-1 pm

Research Auditorium TCHRF 3381

DATE	SPEAKER	RESEARCH AREA
AKESON September 23	CONNIE CEPKO, PhD HHMI Harvard Medical School	<i>Retina cell fate determination</i>
September 30	DON CLEVELAND, PhD Univ of California-San Diego	<i>Axonal growth and motor neuron disease</i>
October 7	TADASHI YAMAMOTO, PhD University of Tokyo	<i>Phosphorylation and cell cycle</i>
October 14	ANGELIKE STATHOPOULOS, PhD CALTECH	<i>Drosophila gastrulation</i>
October 21	CHRISTOPHER WYLIE, PhD CCHMC	<i>Cadherin mediated actin assembly in Xenopus</i>
October 28	SCOTT HOLLEY, PhD Yale University	<i>Zebrafish somitogenesis</i>
November 4	ALEXANDER SCHIER, PhD Harvard University	<i>Complex development and behaviors in zebrafish</i>
November 11	JOHN RUBENSTEIN, MD. PhD UCSF	<i>Forebrain development</i>
RACHFORD November 18	DIDIER STAINIER, PhD UCSF	<i>Mesoderm/Endoderm development in zebrafish</i>
December 2	EREZ RAZ, PhD Munster University	<i>Zebrafish germ cell migration</i>
December 9	AMY WAGERS, PhD Harvard Medical School	<i>Tissue specific stem cells</i>

**** Sponsored by the Perinatal Institute and the Division of Developmental Biology ****
