

Division of Pediatric Dentistry

DIVISION PROFILE

Number of Faculty	8
Number of Other Students (full and part-time)	6
Number of Support Personnel	47
Number of Peer Reviewed Publications	2
Patient Encounters	
Outpatient	37,078
Inpatient	8

FACULTY LISTING

James Steiner, DDS, Professor of Clinical Pediatrics, Division Director

Marie Callen, DMD, Assistant Professor of Clinical Pediatrics

Richard Campbell, DMD, MS, Assistant Professor of Clinical Pediatrics, Director of Orthodontics

Murray Dock, DDS, MSD., Associate Professor of Clinical Pediatrics, Residency Program Director

William Fye, DDS, Assistant Professor of Clinical Pediatrics, Director Off-Campus Offices

William Greenhill, DMD, Assistant Professor of Clinical Pediatrics, Assistant Residency Program Director

Howard Saal, MD, Professor of Pediatrics, Medical Director, Craniofacial Team

Iris Sageser, RDH, MS, Field Service Associate Professor of Pediatrics, Craniofacial Team Administrator

STAFF PHYSICIAN LISTING

Hayley Heckman, DDS, Pediatric Dentist, Mason Office

Amy Maher, DMD, Pediatric Dentist, Anderson Office

Thomas Madl, DMD, Pediatric Dentist, Harrison Office

AnnMarie Matusak, DDS, MS, Pediatric Dentist, Fairfield Office

OVERVIEW

The division was formally founded in 1955 when Children's Hospital established an affiliation with a local group of Cincinnati citizens, The Children's Dental Care Foundation. The division has grown and prospered and is now nationally and internationally recognized for its excellent residency training and clinical programs.

The training program, located on the Clifton campus, accepts five residents each year and has a total of ten residents. Extensive clinical experience is provided in child behavior management, sedation, patient care in the operating room, special needs patients, interceptive orthodontics, emergency care, disease prevention, craniofacial care, and well child care. A didactic program, provided by the faculty and consultants, supports the clinical experience and includes seminars, lectures, case presentations, and one on one teaching in the clinic and operating room.

Each faculty member maintains a clinical practice and each has special interests. The faculty group provides expertise in cleft lip and palate orthopedics for neonates, orthodontic care for patients with craniofacial conditions, oral care for burn patients, infant dental care, patients with special medical, physical, or mental challenges, and dento-alveolar trauma.

Specialty clinics meet monthly in the division and include endodontics, periodontics, esthetics, and oral surgery. A weekly hematology clinic is staffed in the Outpatient Hematology Clinic.

The division operates four off-campus offices in Cincinnati suburban locations to provide dental care in the community. Each office employs a pediatric dentist, a full support staff and delivers comprehensive dental care.

The Craniofacial Team, a multidisciplinary group, meets regularly in the division and provides comprehensive care in one location. Patients are cared for from birth to young adulthood. Specialists include audiology, dentistry, genetics, language disorders, nutrition, oral surgery, orthodontics, otolaryngology, pediatrics, plastic surgery, and psychology. The team is a leader regionally and has an excellent national reputation.

HIGHLIGHTS

The Division of Pediatric Dentistry experienced the busiest clinical year in its 51 year history. Clinical visits increased from 35,632 to 37,078, a 4% increase while outpatient surgeries increased 9% from 1139 to 1264.

We have continued to build on our collaboration with other services. Dr. Marie Callen is our lead professional in this endeavor. She currently serves on the Fanconi Anemia Team and the Epidermolysis Bullosa Team. She also continues her work with liver transplant patients, cardiac surgery, and hematology/oncology. Her skills and knowledge are a valuable community resource.

The adult special needs patient general anesthesia program has completed a successful third year under the leadership of Dr. William Fye. The program provides care for adults who require care in the operating room.

The Children's Dental Care Foundation, a local group of business and professional volunteers that partners with the CCHMC Division of Pediatric Dentistry, had its best fundraising year, providing \$60,000 for dental care for underserved children.

The summer dental extern program which offers senior dental students a rotation in our dental service hosted six students. The students come from dental schools around the country.

Dr. Richard Campbell successfully completed his specialty board in orthodontics.

Dr. Murray Dock and Dr. William Greenhill are using a new nasal alveolar molding appliance to non-surgically perfect nasal anatomy in cleft lip and palate patients.

Our graduating residents successfully completed the written portion of their specialty boards.

Iris Sageser was invited to present a program on Craniofacial Team Management at the American Cleft Palate Association Meeting in Chicago. Iris serves on the ACPA Education Committee and the International Outreach Committee.

Dr. Likith Reddy, a faculty oral surgeon at the University of Cincinnati, has joined our craniofacial team and is working with our residents in the OR.

A resident research project entitled Incidence of Enamel Hypoplasia in Children with Chronic Otitis Media was a selected presentation at the American Academy of Pediatric Dentistry Meeting in San Francisco.

Dr. James Steiner was an invited speaker at the International Association of Dental Trauma.

Our faculty is providing pediatric dental training for three general practice residents from the new dental residency program at University Hospital.

TRAINING

Toni Chen, DDS	PL-I	Univ. Southern California
Peggy Fard, DDS	PL-I	UC Los Angeles
Chieu "Chris" Pham, DDS	PL-I	University of the Pacific
Ketan Sukkawala, DDS	PL-I	Univ. Texas Health Science Center San Antonio
Randy Weinshel, DDS	PL-I	Northwestern University
Sophie Duval-Austin, DMD	PL-II	Univ. of Med. & Dental of N.J.
Michelle Harmon, DMD	PL-II	Medical College of Georgia
Azadeh Jafarnia, DDS	PL-II	University of the Pacific
Charles Sackett, DDS	PL-II	University of the Pacific
Jennifer Woodside, DDS	PL-II	Virginia Commonwealth University
