Outpatient	6,041
Inpatient	1,241

FACULTY LISTING

Raouf S. Amin, MD, Professor of Pediatrics; The Hubert and Dorothy Campbell Professor of Pediatric Pulmonology, Director, Pulmonary Medicine; Director, Sleep Disorders Center and Sleep Laboratory; Director, Transitional Care Center, Medical Director, Respiratory Care

James Acton, MD, Assistant Professor of Pediatrics, Director, Cystic Fibrosis Center

Julio Aliberti, PhD, Assistant Professor

Ronald Bokulic, DO, Associate Professor of Pediatrics

Kelly C. Byars, PsyD, Assistant Professor of Clinical Pediatrics

Barbara A. Chini, MD, Assistant Professor of Pediatrics, Director, Pulmonary Fellowship Training Program

Cori L. Daines, MD, Assistant Professor of Pediatrics

William D. Hardie, MD, Associate Professor of Pediatrics, Director, Pulmonary Function Laboratory

Patricia M. Joseph, MD, Associate Professor in Medicine and Pediatrics, Director, Adult Cystic Fibrosis Center

Maninder Kalra, MD, Assistant Professor of Pediatrics

Christopher Karp, MD, Professor of Pediatrics, The Gunnar Esiason Chair for Cystic Fibrosis Research, Director, Molecular Immunology

Bruce C. Trapnell, MD, Professor in Medicine and Pediatrics

Robert E. Wood, PhD, MD, Professor of Pediatrics, Director, Bronchology Center

Jamie L. Wooldridge, MD, Assistant Professor of Pediatrics

Lisa Young, MD, Research Instructor

FACULTY JOINT APPOINTMENT LISTING

Julio Aliberti, PhD, Assistant Professor, Molecular Immunology

Kelly C. Byars, PsyD, Assistant Professor of Clinical Pediatrics, Pulmonary Medicine

Patricia M. Joseph, MD, Associate Professor in Medicine and Pediatrics, Pulmonary Medicine

Christopher Karp, MD, Professor of Pediatrics, Molecular Immunology

Bruce C. Trapnell, MD, Professor in Medicine and Pediatrics, Pulmonary Biology

Robert E. Wood, PhD, MD, Professor of Pediatrics, Pulmonary Medicine

Left to Right: (1st row) R. Wood, R. Amin, P. Joseph (2nd row) L. Young, J. Acton, B. Chini, N. Simakajornboon (3rd row) R. Bokulic, J. Wooldridge, M. Kalra, C. Daines

OVERVIEW

Clinical Activities

The Division of Pulmonary Medicine has the following clinical programs: (1) Aerodigestive Center, (2) Bronchology Center, (3) Cystic Fibrosis Center, (4) General Pulmonary Medicine, and (5) Sleep Disorders Center.

The Aerodigestive Center is a multidisciplinary program (pulmonary, gastroenterology, otolaryngology, and pediatric surgery) dedicated to the management of children with complex airway, pulmonary, and gastrointestinal problems. The center is rapidly expanding. It is served by Dr. Robert Wood and Dr. Cori Daines.

The Bronchology Center is a rapidly expanding program directed by Dr. Robert Wood. The center has expanded at the rate of 12 % per year.

The Cystic Fibrosis Center is directed by Dr. James Acton. The center follows approximately 200 patients.

The General Pulmonary service is headed by Dr. Ronald Bokulic who attends four satellite outpatient clinics in addition to clinics at CCHMC.

The Sleep Disorders Center provides specialized care to a variety of patients with sleep-related diagnoses such as breathing disorders during sleep, chronic respiratory failure, neuromuscular disorders, and behavioral sleep disorders.

The inpatient services include the Transitional Care Center, dedicated to the management of technology-dependent children. A second service provides care to children with cystic fibrosis and provides consultation for a variety of general pulmonary disorders.

Research Activities

Several funded clinical research programs exist within the Division of Pulmonary Medicine.

Dr. Raouf Amin examines the mechanisms of cardiovascular morbidity associated with sleep disorders. The research is funded by four NIH grants.

Dr. Maninder Kalra examines the mechanisms of upper airway obstruction during sleep in obese children. This research is extramurally and intramurally funded. It is multidisciplinary research that involves the Imaging Research Center, Obesity Center, and Sleep Center.

Dr. William Hardie leads basic science research and examines mechanisms of pulmonary fibrosis.

Dr. Cori Daines co-directs the pediatric section of the Cystic Fibrosis Therapeutic Development Network at CCHMC with Dr. Bruce Trapnell. These multi-center studies receive funding from the Cystic Fibrosis Foundation.

Dr. Jamie Wooldridge participates in multi-center studies through the Therapeutic Development Network.

Dr. James Acton participates in multi-center studies through the Therapeutic Development Network and directs the Cystic Fibrosis Foundation Funded CARE Center Grant.

Teaching Activities

The Division of Pulmonary Medicine has two fellowships. ACGME accredited fellowship training programs are in pediatric pulmonology and sleep medicine. The division has 8 fellows in training. Dr. Raouf Amin holds a mid-career investigator award in patient oriented research (K24). Dr. Patrick Sobande is funded by the Cystic Fibrosis Foundation. Dr. Jonathan Puchalski holds a K32 award.

HIGHLIGHTS

Clinical Activities

The Division of Pulmonary Medicine at Cincinnati Children's Hospital Medical Center has very diverse clinical programs, many of which are based on integration with other divisions and disciplines. During the last year the clinical programs within the division have experienced a significant increase in the number of referrals and consultations.

The Bronchology Center, under the leadership of Dr. Robert Wood, and the Sleep Disorder Center have become the largest pediatric programs of their kind in the world. The Bronchology Center receives approximately 1100 requests for consultation and airway evaluations per year. The Sleep Disorder Center received 1000 new referrals and 3000 follow-up visits during the last year. The Sleep Laboratory performed over 1600 polysomnograms. In addition, the Division of Pulmonary Medicine has been a very active participant in the neuromuscular program at CCHMC.

The Cystic Fibrosis Center continues to demonstrate improvement in outcomes with the continuing effort in the Pursuing Perfection project.

The satellite outreach program evaluated 1600 pulmonary-related patients during the last year.

Research Activities

Dr. Amin carries four NIH grants. Two of the grants are R01, one K24 and one U01 awards. Dr. Maninder Kalra received the Pfizer Young Investigator Award in Sleep Medicine and the Dean's Scholar Award.

Teaching Activities:

The Division of Pulmonary Medicine at Cincinnati Children's Hospital Medical Center received ACGME accreditation of its sleep fellowship to become the first pediatric institution to receive this approval. The pulmonary trainees successfully compete for the clinical sub-fellowship program and T32 award. Dr. Patrick Sobande a second year pulmonary fellow successfully competed for the Cystic Fibrosis training grant during 2006.
