

Breastfeeding Medicine Clinic

Our Experienced Team

The Breastfeeding Medicine Clinic is staffed by pediatricians who are all International Board Certified Lactation Consultants. All of the providers have extensive experience with a wide range of maternal and pediatric health conditions related to breastfeeding.

Sheela Geraghty
MD, MS, IBCLC

Sarah Lawler
MD, IBCLC

Ellen Springer
MD, IBCLC

Julie Ware
MD, MPH, IBCLC

Our Clinic Services

During Breastfeeding Medicine Clinic assessments, mothers and babies are registered and seen together as patients in order to best help families create a comprehensive plan that meets the needs of all involved. We evaluate, treat and manage breastfeeding problems such as:

- Prenatal breastfeeding concerns
- Problems with latch
- Sore nipples and breast pain
- Nutritional management for slow weight gain in the baby
- Management of low milk supply and oversupply
- Nipple and breast infections
- Breastfeeding assistance for premature babies, multiple gestation (twins and triplets), and babies with complex medical issues

Appointments/Questions

For patient appointments and non-urgent breastfeeding questions during business hours, call 513-636-2326. No referrals are needed for appointments.

We understand that breastfeeding concerns are urgent, so we do our best to get mothers and babies scheduled as soon as possible.

All infants must be seen by their primary physician before coming to the first appointment.
