

Outpatient Services Schedule

SPRING 2021

Telehealth Support for Patients and Physicians

Our Center for Telehealth uses a variety of technologies to remove geographic obstacles enabling patients, families and providers to interact directly with our experts for access to specialty care, education and consultations.

Video visits allow patients and families to receive care from our specialists from a location most convenient to them using a smartphone, tablet or computer to see their care team without a trip to the hospital or clinic. Ask the care team if a video visit is right for your patient.

We partner with healthcare providers to support the care you provide to your patients using telehealth technologies. Consultations, specialty clinics, remote patient monitoring, and diagnostics are just a sample of the care we can provide via telehealth.

Physician Priority Link

Cincinnati Children’s provides this unique physician-to-physician service to any provider who needs to consult about a patient. A physician at Cincinnati Children’s will be available to take your call within two minutes.

One number does it all.

Call us any time at **513-636-7997** or **1-888-636-7997**

(**Fax: 513-636-8012**), to connect with our specially trained Physician Priority Link operators who can:

- Connect you with a specialist on-call for consultation
- Put you in contact, for referral purposes, with the appropriate resource anywhere throughout the medical center
- Connect you for lab and test results
- Link you to resources for patient care follow-up
- Provide general information
- Direct you to special services as needed

Urgent Care Save My Spot Available

Doctors: When you refer your patients to Urgent Care, please direct them to cincinnatichildrens.org/urgent so they can save their spot in line.

Please fax all referrals and order forms (EXCEPT outpatient lab forms intended for walk-in procedures) to our fax number at:

513-803-1111 • 866-877-8905
