Advanced Topics in Histiocytosis Bootcamp

Friday, September 20, 2019

Cincinnati Zoo and Botanical Gardens

Advanced Topics in Histiocytosis Bootcamp

Join us for an in-depth workshop where you will learn how to diagnose and manage patients with hemophagocytic lymphohistiocytosis (HLH) and Langerhans cell histiocytosis (LCH).

Early detection of these rare diseases can be challenging, but is crucial to patient survival and outcomes. Learn too about some of the latest research findings and treatments, and what is on the horizon for these histiocytic conditions.

Case Discussions

**Case Submission Deadline:
August 2, 2019**

A hallmark of this conference is dedicated time for the discussion of interesting and difficult diagnostic dilemmas and transplant challenges. This year's conference will have a two hour session devoted to the discussion of cases submitted by conference participants.

The success of this portion of the conference is dependent upon the attendees submitting cases. Please submit a brief summary of your case to be considered for discussion by August 2, 2019 to HLH@cchmc.org. Selected cases will be notified by email.

A Place for Families and Experts to Talk

A histio family day for patients and families will run the day after the physician conference.

The family conference is free for families to attend. Please spread the word to families you may know who would be interested.

Families can contact the HLH Center of Excellence for more information at **513-803-3872** or HLH@cchmc.org

Families can register for the conference here: 2019histoday.eventbrite.com
