- Email: conciierge@cchmc.org

For safety-related questions, contact the Car Seat Program at 513-803-RIDE (7433).

LiteMax Infant Car Seat

\$66.00

- For infants weighing **3-35 lbs.**
- **Rear-facing**
- Harnesses should be snug (can't pinch any excess webbing), at or below the child's shoulders
- Can be installed with or without the base in the vehicle
- Move to different car seat once the child's head is closer than one inch from the top of the seat shell (don't worry about their feet hanging over the seat's edge).

Titan-65 Convertible Car Seat

\$68.00

- For children weighing **5-65 lbs.**
- **Rear-facing until age 2 and 20 lbs. then convert to forward-facing.**
- Two belt paths for installation (color-coded for rear-facing and forward-facing).
- Harness straps should be tight (can't pinch excess webbing), and the harness should be at or below child's shoulders when rear-facing, and at or above shoulders when forward-facing.

Maestro Sport Combination Car Seat

\$72.00

- For children **age 2 and weighing 22-50 lbs. with the 5-point harness**; for children **age 4 and weighing 40-110 lbs. as a booster seat** (remove 5-point harness) – per Ohio booster seat law.
- **Forward-facing only.**
- Harness straps should be snug (can't pinch excess webbing) and should be at or above child's shoulders.
- When using as a booster seat, you must use the vehicle's seat belt.
- Always be sure to install the tether, regardless of whether you use the seat belt or lower anchors in the vehicle.

High-Back Booster Seat

\$35.00

No-Back Booster Seat

\$19.00

- **Booster seats are for children who weigh 40-110 lbs. and are age 4+.**
- **Forward-facing only.**
- Booster seats require the use of the vehicle's seat belt.
- The High-Back Booster Seat should be used if there is no headrest in the vehicle.
- No-Back Booster Seats can only be used if there is a headrest in the vehicle.
- The back of the High-Back is detachable for easy conversion to a No-Back.
- When a child is not using the seat, buckle the seat so it doesn't fly around the vehicle while driving.

High-Back Booster Seat

No-Back Booster Seat

***In the state of Ohio, children no longer need booster seats when they reach age 8 or a height of 4 feet, 9 inches. Contact your state's local Department of Health for laws outside Ohio.**

Bike Helmet

\$10.00

- 4 available sizes, with suggested head circumference:
 - Toddler (18-20 inches)
 - XS/Small (20-21.5 inches)
 - Small/Medium (21.25-22.5 inches)
 - Large/XL (22.5-24.5 inches)
- Measure the wearers' head circumference to determine their helmet size.
 - Age does not determine helmet size.
 - Measuring tapes are available in the Family Resource Center. Measure about two finger widths above the eyebrows.
- When worn, the straps should make a "V" around the ears, and the chin strap should be tight enough that the helmet doesn't rock front-to-back on the head.
- Helmets can prevent 85% of head injuries when worn properly. Parents should wear helmets, too, so they can be good role models.
- **Helmets may not be tried on prior to purchasing.

HALO SleepSack Swaddle (Newborn)

\$12.00

HALO SleepSack Wearable Blanket (Small and Medium)

\$16.00

- **Newborn-size Swaddles** are for babies from birth to 3 months, 19-33 inches in height, and 6-12 lbs. in weight.
 - Can be swaddled in 3 ways: arms in, hands-to-face, or one or both arms out. Discontinue swaddling when the baby shows signs of breaking free or rolling over.
- **Small-size Wearable Blankets** are for babies from birth to 6 months, 23-26 inches in height, and 10-18 lbs. in weight.
- **Medium-size Wearable Blankets** are for babies from 6-12 months, 26-30 inches in height, and 15-24 lbs. in weight.
- For use over the child's regular sleepwear and replaces loose blankets in the crib.
- Always place your baby on his/her back for safe sleep.

Safety 1st Easy-Fit Security Gate

\$28.00

- Use only at bottom of stairs or to block off doorways.
- **Do not use at top of stairs.** If you wish to put a gate at the top of the stairs, you will need one that bolts into the wall. This gate does not have the ability to bolt into the wall.
- Can be used for dimensions 27-42 inches in width.
- Make sure the gate locks behind you each and every time.
- Indoor use only.
- Extensions available for purchase at other retail outlets.

Safety 1st Home Safety Childproofing Kit

\$10.00

- Includes:
 - 4 doorknob covers
 - 12 cabinet drawer latches
 - 30 outlet covers
- Doorknob covers are great for bathrooms, basements, and garages.
- Cabinet drawer latches work great on kitchen and bathroom drawers. They require a drill for installation.
- Recommended to install outlet covers when child is not in the room to avoid unnecessary attention to the outlets.
- Makes a great baby shower gift!

Mattress Pad

\$8.00

- Approximately twin bed-sized (34x72 inches).
- Comfortable "egg-crate" style topper.
