Other family member's sample (following discussion with laboratory)

Test requisition (all billing and clinical information must be completed)

Signed informed consent form

Family history and pedigree

Detailed patient clinical history/clinical summary or notes

Summary of previous genetic test results

Letter of medical necessity stating impact of whole exome sequencing results on medical management

Please include all information with sample(s) or fax to 513-636-4373.

CLINICAL HISTORY

Complete clinical information is critical to interpretation of exome sequencing results

Please indicate the presence of and describe the symptoms found in the patient and other family members. In addition, please submit the proband's clinical summary, relevant medical records and summary of previous test results.

Proband's working diagnosis: _____

Congenital anomalies (specify): _____

Dysmorphic features (specify): _____

Previous diagnostic testing (please include reports, when available)

Chromosome/FISH analysis _____

Microarray _____

Single gene testing _____

Radiologic studies (MRI, CT, Xrays) _____

Muscle/skin biopsy _____

Metabolic testing _____

Other relevant results: _____
