Saliva Collection Kit Instructions

Spit until the amount of saliva (not bubbles) reaches the fill line.

Close lid tightly by pushing down hard on the funnel lid until you hear a loud click.

Unscrew the funnel from the tube.

Use small cap to close tube tightly.

Shake the capped tube for 5 seconds.

Write the patient’s name/date of birth on the patient ID label. Place the specimen tube and completed requisition in the specimen transport bag. Mail at room temperature.
