1. Sit in close proximity with the parent.

2. Show the parent the topics on each card.

3. Let the parent choose a card to discuss.

4. Allow the parent to read the card.

5. Explain what the information means.

6. Allow the parent to review all of the cards & help select topics that are important to family.

7. Select medicine that fits patient & family needs.

8. Give cards for home reference & conclude visit.

ADHD Medication Choice Cards
A guide to using the cards with your patients.
