The 2011 Child Well-Being Survey included an oversample of households in the Cincinnati neighborhood of Price Hill. Price Hill is a neighborhood on the western edge of the City of Cincinnati and includes Lower Price Hill, East Price Hill, and West Price Hill. Price Hill is one of three sites participating in the Place Matters initiative, a place-based investment project which aims to improve quality of life by targeting specific issues. A total of 214 surveys were completed with parents/caregivers in Price Hill to help provide a more detailed understanding of the health status and needs of children in Price Hill.

**General Health Status**

9 out of 10 parents in Price Hill described their child’s health as “excellent” or “very good.”

**Oral Health & Preventive Dental Care**

8 out of 10 parents in Price Hill described their child’s teeth as “excellent” or “very good.”

2 out of 10 parents in Price Hill report that their child has experienced toothaches, cavities, broken teeth, and/or bleeding gums within the past six months.

7 out of 10 parents in Price Hill report that their child has had at least one preventive dental care visit within the past year.

**Health Problems**

2 out of 10 parents reported that their child has a special health care need.

3 out of 10 children with asthma in Price Hill have visited the ER or urgent care within the past year due to their asthma.

2 out of 10 parents report that their child was injured within the past year.

3 out of 10 children ages 10 – 17 years in Price Hill are overweight/obese. However, only 1 out of 10 parents of children ages 10 – 17 years describe their child as “overweight” or “obese.”
Parents in Price Hill say that their neighborhoods have sidewalks, playgrounds, recreation centers, and/or libraries.

9 out of 10 Price Hill parents say that their neighborhoods have sidewalks, playgrounds, recreation centers, and/or libraries.

The 2011 CWBS was supported by the United Way of Greater Cincinnati, the Health Foundation of Greater Cincinnati, the Center for Clinical and Translational Science and Training at the University of Cincinnati, and Vision 2015 of Northern Kentucky.
